

Boston Architecture Map

Style Guide

I'll be using OpenStreetMaps. Often, websites that feature maps suffer from a disjunction between the style of the website and style of the map. To avoid this, I'll be using Roboto to match the text.

Website title and building titles will appear in Rakkas, any main page names will appear in Rakkas in a dark brown color that is derived from the map's native colors.

Map Colors:

#AAD3DF

#F7B29C

#E893A2

Website Colors:

#BBE7F2

#99682B

#E3BCC5
